

What a lark the young stay-at-home girl has had these last few full moonlight nights! Indeed some of the not-yet-out set are about all that is left in town, and haven't they improved their opportunities? It is such a fine chance to get a bit acquainted with the older men, who, perforce, are lagging about town until the last of August, or else just back from short lake trips. I can't blame a certain bud for rebelling when her family drarged her off to South Haven last week. "If you'll only let me go and stay with Auntie Rose while you're gone, I'll do without my allowance; I won't ask for another thing to wear for three months, and I'll promise to be just the best girl in the world!" was her plain tive plea.

It did not go, however, alack and alas! Mamma has other plans for Miss Marie than to allow her to spend the summer unchaperoned and "gallivanting about," as she declares, with young men "entirely too old for the child."

Corn roasts—when one could get the corn—have been popular. Out on the top of a certain small hill in Old Orchard, just

corn roasts—when one could get the corn—have been popular. Out on the top of a certain small hill in Old Orchard, just west of a tiny grove of trees, several parties have flourished on moonlight nights of last week. It was guite cool enough for a good fire, and then it proved to be such fun to roast the corn. There are those who affirm solemnly that corn roasted out of doors and browned about the way it usually is—burned on one side and raw on the other—is not fit for human consumption; but I note that such persons who make such remarks are always of mature years and embittered dispositions.

Marshmallow roasts, too, are holding their own, provided one has a back lot, or can get out into the country and make a fine blaze. Sticks whittied to a fine point and long enough to prevent a wholesale burning of fingers; lots of "mellows"; a jolly party, and a moon—what more is needed for genuine fun?

One of my Eastern correspondents announces in a recent letter that hot ice cream roasts are having a vogue along the yeary summer. Gente Loras Donovan does the honors, and her friends reap the fun.

The Flanigan household, with three or four girls who know how to make others have a good time, is always en fete these summer evenings, out on Raymond avenue. Adele and Grace Flanigan, with Miss Donovan, and jolly little "Woody" Simpson, invariably gather a party round about them, and large are the doings.

Out at Delmar Garden last Monday night I watched a group of stunning young girls who are sure to make a good bit of excitement in society when they come out in the fail. Virginis Wright, Amy Holland and Julia Knapp are they; and each and every one quite pretty enough and to spare for all social purposes. Miss Wright finished at Mary in June, but the other two are just out of Dobb's Ferry, and have not only a very pretty manner, but considerable style and that indefinable case in their clothes.

Colonel George S. McGrew has decided to take a much-needed rest from the cares of business and 'the responsibility of Glen Echo, and will sail for Europe late in August, about the time that his daughter, Mrs. Albert Bond Lambert, is ready to return to her Paris home. Mr. Lambert will be detained in St. Louis until October by various business matters, but Mrs. Lambert and the Colonel will go over about the 20th. On reaching the other side the Colonel will make a short trip to Paris, gather up Mrs. McGrew, who has had charge of her grandchildren, and together they will take a jaunt round the Scottish golf courses of more or less renown.

It is Colonel McGrew's deliberate intention to make the course at Glen Echo the best this side the Atlantic, and he purposes to inform himself fully on the subject of European links before returning home.

Just before returning to Rye Mrs. Bohroers gave a farewell moonlight plenic to a number of the classmates of Cadet Karl Klemm. Cadets Reynolds and Moller, both of St. Louis, lent their assistance, and the evening was one of great pleasure. The young girls and Mrs. Schroers have gone back to Rye Beach, and will stay until late September.

Any information regarding the name of a charming young woman who was a recent visitor in town and whom Charlie Senter escorted to the Delmar a few nights ago will be gratefully received by the young bachelor in question.

KING EDWARD'S MAGNIFICENT NEW MOTOR CARRIAGE.

King Edward's latest motor car is one of the finest vehicles of its kind yet built. Unlike most motor cars it is remarkable for the Leatness and elegance of its appearance, and, though substantially built, it is comparatively light. It is a sort of motor phaeton, having seating accommodation for half a dozen persons, one beside the driver on the front seat, a couple on the middle seat, and a box for two footmen at the back. This is not by any means the first motor car the King has had made for him; for, like the King of the Belgians, his Majesty takes a keen interest in horseless carriages, and has had two built for him previously. This latest motor car, however, will mark something of a new departure, for during the coming season the King intends to take regular rid as in it in Hyde Park.

in fact, a veritable nuisance. A rebuff did him no good.

At last the fair player received orders to go on tour. The news of this reached the amorous one. On the day appointed for her departure he managed to make his way to her flat. He lost no time in proceeding to her bedroom, where the much-favored lady was engaged in packing. Guess her horror, not knowing what to do.

Fearful of the scandal which would result, she suddenly exclaimed: "My husband is coming. Hide, for Heaven's sake, | "ie!"

She pushed him into a convenien' sardrobe, closed the door and locked |. Her luggage was removed, she going out, too, intending to return after a time and relieve her prisoner.

Unfortunately, for some reason or other, she was unable to do that. The janitor locked up the flat, leaving bon Juan struggling for air in the cupboard.

There he was found next day. The janitor heard groans, opened the door, and, naturally concluding that the man was a burglar, raised an alarm and handed him over to the police.

Being unable to give a reasonable account of his presence there without dragging in the lady's name—and he was sportamas enough not to do that—he was sent to prison, where he is likely to remain for some little time to come.
